Leo Varadkar

1) He was 38 when he became Taoiseach.

2) He is the youngest Taoiseach in the country's history, he is qualified as a general practitioner and he is the first openly gay and mixed-race leader that Ireland has had.

3) He studied law at Trinity College Dublin and later switched to medicine at the school of medicine at Trinity.

4) Teachta Dála.

5) He was a TD for ten years before becoming Taoiseach.

6) He cut Euro 12 million from the annual mental health care budget when he was Minister for Health.

7) Mental health is very important and people would suffer if the money was cut and services to help people who needed them were not there.

8) I think he was talking about people who get up early to go to work in the morning.

9) I think his father would be very proud of him. Imagine being leaving a small village in India to

make a better life for yourself and in the end, your son ends up being the leader of the country!

10) He would have to restore devolution in Northern Ireland, he would have to deal with Brexit and he would have to tackle inequality in Ireland.

Synonyms and Antonyms

Word	Synonym	Antonym
big.....	huge	small
beginning.....	first	end
happy.....	joyful	sad
quick.....	fast	slow
simple.....	easy	difficult
rough.....	bumpy	soft
sleepy.....	drowsy	alert
strong.....	tough	delicate
scary.....	spooky	calming

George

1) The poem is about an accident that happened when a balloon that George got from his Grandma blew up and destroyed the house.

2) Favourite line: It tottered, shuddering to and fro. I like the sound of it and it creates a great image of the poor house swaying in my mind.

3) Feelings and emotions: surprise, shock, sadness, devastation, fear, regret

4) I see a huge balloon which is delivered in a huge trailer to the house. I see the cousins, Mary and Fred, together trying to bring it into the house through the front door. They pull and pull. Suddenly, there's an enormous explosion. The description of the house's destruction is excellent. I see all those things happening, until the whole house crashes into the street below. And bodies everywhere. And poor George, with a large bump behind his ear, crying his eyes out in the rubble. It's not a very happy poem!

5) Adjectives: immense, dangerous, loud, broken, dreadful, nasty

6) Verbs: promised, buy, came, got, exploded, went, broke, filled, shrieks, yells, mingled, began, crashed, happened, arrived, cleaned

7) Sound patterns: as good as gold; broken bones; nearly every 2 lines rhyme

8) What I like: It's very descriptive and action-packed which is unusual for a poem.

9) What I dislike: there's no happy ending and I feel sorry for George.

Geography

Earth Day

1) It is the 50th anniversary of Earth Day.

2) Climate Action.

3) It stays in the ground for many years.

4) There are many ways that we can look after the Earth and help make it a cleaner, safer place for everyone.

Every year in the UK, we throw away around 295 billion pieces of plastic.

Try planting some bee friendly plants and trees in your garden.

Many people believe that one way to help out planet is by eating more food made from plants rather than animals.

5) practical

6) It gives off a warming gas.

7) A star is something good and the centre of attention. Usually vegetables are at the side of a meal and are not the main attraction.

8) I would use soap to wash myself instead of buying plastic containers containing soap.

English Answers

Jannah bought a pen, pencil and a rubber.

Saleh had some paper, ruler and a book on his tray.

The room was dirty, smelly and very dark.

Daud, Ibrahim, Dylan and John went swimming.

In the bag was some sweets, a pen and some money.

Class 3 saw monkeys, lions, tigers and bats at the zoo.

Liverpool, Arsenal, Chelsea and Everton were still in the FA cup.

Tyler got a new bike, computer, playstation and football shirt for her birthday.

Maths answers - May 14th

Place Value: Answers

Make the biggest number possible from the following digits and write it in expanded form. The first one is done for you!

Digits	Biggest Number Possible	Expanded Form
1, 9, 8	981	$900 + 80 + 1$
7, 1, 6	761	$700 + 60 + 1$
5, 0, 8	850	$800 + 50 + 0$
2, 9, 7	972	$900 + 70 + 2$
2, 0, 7	720	$700 + 20 + 0$
4, 5, 1	541	$500 + 40 + 1$
3, 3, 9	933	$900 + 30 + 3$
7, 6, 3	763	$700 + 60 + 3$
9, 4, 7	974	$900 + 70 + 4$
1, 4, 2	421	$400 + 20 + 1$

Place each of the numbers above in order, starting with the smallest:

421 , 541 , 720 , 761 , 763 , 850 , 933 , 972 , 974 , 981 .
