

Hello 5th class parents,

As Mr. Hayes stated last week in a letter he posted to the App, teachers will be uploading a weekly plan to help your child have an idea of what school work they can be doing from home. There will be suggested activities for each day but please do not feel under any pressure to follow the timetable or complete all the work. This is meant as a support to parents and not to add extra stress at this strange and difficult time.

We will try to keep activities simple and include some links to helpful websites also. However, it is up to each parent to decide what's best for their child/family depending on their current circumstances. We fully understand that some parents are working from home/caring for other children who may be ill etc and we don't want anyone feeling under pressure to get school work done. You can only do what you can! Everyone's efforts are appreciated and that's all that's expected. The most important thing is the mental and physical health of you and your children!

If you have any questions or we can help in any way, feel free to email any of the 5th class teachers.

Thank you,  
Ms.Murphy.

## Monday

### Reading Written Numbers (A)

Read each number and write it as a numeral.

forty-four thousand eight hundred eighty-five

twelve thousand six hundred ninety-nine

eighty-eight thousand two hundred eighty-one

sixty-five thousand eighty-one

twenty-seven thousand five hundred one

forty-eight thousand three hundred eleven

seventy-three thousand two hundred ninety-one

thirty-three thousand nine hundred eighty-eight

## Albert

My name is Albert and I am a box turtle. I am an exceptional reptile because, as you probably know, turtles do not write stories. I have decided to let people know a little bit more about box turtles. I move rather slowly at my age. It has not always been that way though. Why, when I was a hatchling, I could speed across my yard in no time. I will admit that I got stuck on an occasional twig or garden hose, but I was certainly not a quitter. My little legs would just keep going until I overcame any obstacle. As I grew, I learned to slow down and enjoy all the interesting sights and sounds my environment provided. I have discovered "bug holes", found the juiciest berries and can tell when my owner is coming to play. When my owner approaches, I stretch out my long neck to reveal my beautiful colouring and proudly walk up to my owner and scratch at his feet. My owner is much taller than me and usually sits down with me. While my owner is watching, I make a point to walk around him, crawl under his legs and usually go for a swim in my pond. He finds this behaviour endearing and proceeds to pick me up and tell me how funny I am. This ritual is frequently completed with a special turtle treat of melons or dog food. Resting is one of my favourite past times. During the warm summer months, I like to dig a hole in my yard and crawl into it. It is quiet and cool in my special place. During the cold winter months, box turtles, like me, hibernate by digging an even deeper hole and staying there until the warmth of the summer sun returns.

1. In the first paragraph, what does the word exceptional mean?

---

2. What is one of Albert's favourite things to do?

---

3. What does Albert do during the winter?

---

4. Do you think Albert usually accomplishes his goals? Why or Why not?

---

5. What kind of turtle is Albert?

---

6. Use the internet and write down three interesting facts about turtles.

7. Draw a picture of a turtle.

## Sharks

Sharks are fishes, but unlike most fish their skeletons are made of cartilage, Sharks were around when dinosaurs roamed the earth. Sharks have to keep swimming in order for oxygen to enter their bodies. The largest shark is the whale shark. The whale shark is absolutely harmless. There are about 400 different types of sharks in the oceans. They do an important job by eating dead and dying sea animals and keeping the ocean clean.

### Complete the sentences

1. What is a shark's skeleton made of? \_\_\_\_\_
2. How long have sharks been in the oceans? \_\_\_\_\_  
\_\_\_\_\_
3. Why do sharks have to keep swimming all the time?  
\_\_\_\_\_
4. Give 2 words that describe a whale shark.  
\_\_\_\_\_
5. How many different types of sharks are there? \_\_\_\_\_
6. How do sharks help clean the oceans? \_\_\_\_\_  
\_\_\_\_\_
7. Find a word that means "walking around". \_\_\_\_\_

## Mr. Nobody

I know a funny little man,  
As quiet as a mouse,  
Who does the mischief that is done?  
In everybody's house!  
There's no one ever sees his face,  
And yet we all agree,  
That every plate we break was cracked.  
By Mr. Nobody.

He puts damp wood upon the fire,  
That kettle cannot boil;  
His are the feet that bring in mud,  
And all the carpets soiled.  
The papers always are mislaid,  
Who had them last but he?  
There's no one tosses them about.  
But Mr. Nobody.

The finger marks upon the door,  
By none of us are made;  
We never leave the blinds unclosed,  
To let the curtains fade.  
The ink we never spill; the boots  
that lying round you see,  
Are not our boots -- they all belong.  
To Mr. Nobody.

Name: \_\_\_\_\_

## Mr. Nobody

1. Who was Mr. Nobody?

\_\_\_\_\_

2. Why did everybody think that Mr. Nobody do all the wrong things?

\_\_\_\_\_

3. What is the main idea of this poem?

\_\_\_\_\_

4. Can you write the poem on Mr. Somebody?
