### Student Council

This month the student council have been working hard and having lots of meetings to discuss how we can improve our school. Here are some things we are planning to do this year to improve our school.

- Christmas Jumper/Colour Day fundraiser on the last day of term which would be €2 for everyone. The money we raise will be used to buy new equipment for the yard.
- Students of the term parties with Ms Dunleavy in the hall.
- Students of the month cafe so every student of the week from that month will go to The Student Council Cafe and get some treats with their teacher (the student council members will help run the cafe).

**Green Schools-** The team have been busy this month taking part in litter picking at lunchtimes. The team took a walking tour of the school to observe how the school manages litter and recycling. The whole school took part in an online survey on litter and waste and the team will use all this information to make a plan of action to try and maintain our Green Schools flag.

Also a big thanks to everyone who contributed to the Green Schools clothes collection which will be used to fund environmental causes and shared with the Laura Lynn Foundation.
