

Dear Parents/Guardians,

I hope you are all safe and well. Please find the work for the week of the 11th January. As you are aware by now, schools will remain closed to students until further notice by the Government so we will have to resume our learning remotely. The teachers have met and are well prepared to support distance learning from this week onwards. We will be in touch on a weekly basis and there will be class meetings once a week to support pupils in their learning. So if you get an incoming call from an 'unknown or private number' it could be us, so please answer :)

We are aware that this is a stressful time for everyone. It is important to remember that you can only do what you can do. Please don't feel overwhelmed by the work that is being sent. The work is designed to make things more manageable at home, provide the children with some routine and continue their learning as outlined in the curriculum and the school plans. Health and wellbeing come first. If you need any help, we are only an email away!

Engagement and feedback is very important to us as a school. This is in order to help all members of the school community learn, improve and develop the online learning experience. We, as teachers, would be appreciative if the pupils could email us examples of their work and any questions relating to the work. As ever there is no pressure on you as parents to do this.

Stay safe :)

## Albert

My name is Albert and I am a box turtle. I am an exceptional reptile because, as you probably know, turtles do not write stories. I have decided to let people know a little bit more about box turtles. I move rather slowly at my age. It has not always been that way though. Why, when I was a hatchling, I could speed across my yard in no time. I will admit that I got stuck on an occasional twig or garden hose, but I was certainly not a quitter. My little legs would just keep going until I overcame any obstacle. As I grew, I learned to slow down and enjoy all the interesting sights and sounds my environment provided. I have discovered "bug holes", found the juiciest berries and can tell when my owner is coming to play. When my owner approaches, I stretch out my long neck to reveal my beautiful colouring and proudly walk up to my owner and scratch at his feet. My owner is much taller than me and usually sits down with me. While my owner is watching, I make a point to walk around him, crawl under his legs and usually go for a swim in my pond. He finds this behaviour endearing and proceeds to pick me up and tell me how funny I am. This ritual is frequently completed with a special turtle treat of melons or dog food. Resting is one of my favourite past times. During the warm summer months, I like to dig a hole in my yard and crawl into it. It is quiet and cool in my special place. During the cold winter months, box turtles, like me, hibernate by digging an even deeper hole and staying there until the warmth of the summer sun returns.

In the first paragraph, what does the word exceptional mean?

---

What is one of Albert's favourite things to do?

---

What does Albert do during the winter?

---

Do you think Albert usually accomplishes his goals? Why or Why not?

---

What kind of turtle is Albert?

---

Use the internet and write down three interesting facts about turtles.

---

---

---

Draw a picture of a turtle.

### Sharks

Sharks are fishes, but unlike most fish their skeletons are made of cartilage. Sharks were around when dinosaurs roamed the earth. Sharks have to keep swimming in order for oxygen to enter their bodies. The largest shark is the whale shark. The whale shark is absolutely harmless. There are about 400 different types of sharks in the oceans. They do an important job by eating dead and dying sea animals and keeping the ocean clean.

#### Complete the sentences

1. What is a shark's skeleton made of? \_\_\_\_\_
2. How long have sharks been in the oceans? \_\_\_\_\_
